Millennium

Huuuuuu huhuhuhuhu huuuhuu

**We've got stars directing our fate
And we're praying it's not too late
Millennium**

**Some say that we are players
Some say that we are pawns
But we've been makin' money
Since the day that we were born
Got to slow down (slow down)
Cause we're low down (low down)**

**Run around in circles
Live a life of solitude
Till we find ourselves a partner
Someone to relate to
Then we'll slow down (Slow down)
'Fore we fall down**

**We've got stars directing our fate
And we're praying it's not too late
Cause we know we're falling from grace
Millennium**

**Live for liposuction
And detox for your rent
Overdose for Christmas
And give it up for Lent**

**My friends are all so cynical
Refuse to keep the faith
We all enjoy the madness
Cause we know we're gonna fade away
We've got stars directing our fate
And we're praying it's not too late
Cause we know we're falling from grace
Millennium**

Come and have a go if you think you are hard enough

Stand: 31.03.2025

Come and have a go if you think you are hard enough

Millennium, Millennium

We've got stars directing our fate

And we're praying it's not too late

Cause we know we're falling from grace

Millennium

And when we come we always come too late

I often think that we were born to hate

Get up and see the sarcasm in my eyes

And when we come we always come too late

I often think that we were born to hate

Get up and see the sarcasm in my ey-ey-eyes

We've got stars directing our fate

And we're praying it's not too late

Cause we know we're falling from grace
